This Palpably Due to Covering by Shorts, and Closing Is Weak and Dull.

Weak and Dull.

(By Associated Press.)

NEW YORK; Jan. 28.—The speculative pairy, which has persistently supported attest through the later stages of the footh advance, desisted to-ony and all leved prices to slip back without any apparent measure to resist, During the morning there was a big buying order executed in Atchison, which lifted that strek a large fraction over last night, and which was attributed to the organized built party for the purpose of supporting the market. It was accompanied, however, by the rumor that Atchison was active to be listed on the levil board, and the fact that Atchison and a block of \$100,000 of bonds for sale was supposed to furnish a motive for stimulating the market for the stock. The movement was interfective in checking the declining tengrapy elsowhere. The taily in the last hour was palpaoly due to covering of snort contracts by room professionals and pointed to an interence that the may's selling had been on the short side. The barrs, however, found it so easy to secure stocks that they desisted from their buying and prices agreed again to the end of the day. The classing was weak and dull.

Furle efforts, it was said, were still being made to bring the Bouthern from makers to terms of agreement for production and selling. United States Steel pictered was not illogically the weakest and most active stock unear these circumstances. A batch of very untavorable picter reactionary factor.

The conlors, of which soveral reported to-day, show the inevitable effects not only of a comparison with last year's anortmally favorable conditions in the trace, but of the continued growth in operating expenses, which is of increasing effect in all rail oad statements. Yet Ero, Ontarlo and Western and Reading, which were the complete in the Inflow of curroncy to New York. The reflection implied by the action of the Stock Exchange authorities in striking from the list in the day's selling.

Togeibility of future restriction of money supplies is coming up for discussion again, owing to the

NEW ORLEANS, Jan. 28.—The bull leaders swent the ring off its feet this morning in the cotton market. The market opened excited on sensationally favorable cables from Liverpool. A fair amount of general buying orders was seen, but late in the morning the bull leaders of bred to sell all the May cotton the ring had at 10.33. The purchases amounted to about 5,000 bales. The ring was practically bare of offerings after this, and prices quickly rose, until March was 38 points higher than yesterday's closing at 16.02, and May was 45 points higher, at 16.53.

NEW YORK, Jan. 28.-July cotton sold at 16 cents a pound on the New York Exchange to-day. A few years ago the Exchange to-day. A few years ago the price ranged between six and eight cents. The market opened strong at an advance of 7323 points on heavy buying of a more or less general character, that was induced by the sensational advances in the Liverpool market, where prices at one time were 2375 points higher. As the market worked phward liquidation became increasingly heavy, but with New Orleans; buying here room shorts covering and outsiders buying, the advance was not checked until March had, reached 18.54. May 15.90 and July 16 cants, a net advance of 23623 points. Following this the market cased off a few points, ruling very nervous.

It was not until well after noon that the excitement reached its height. Around 16.15 for May stop orders were reached, and the whole list made a wild jump, with July going from 18.55 to 16.40, without an intermediate sale. This carried the active months to an advance of secul points for the day, and at this level prices showed a gain of about 246 points, or two and two-fifth cents per pound from last week. The advance had been accomplished without any geaction of moment.

At the new high level there was heavy price ranged between six and eight cents.
